II Descriptions of Corporate Governance

Pursuant to the Finnish Limited Liability Companies Act and Kojamo plc's Articles of Association, control and administration in the company is divided among the shareholders presented at the Annual General Meeting, the Board of Directors and the CEO. The CEO is assisted by the Management Group.

Annual General Meeting

The General Meeting is Kojamo plc's highest governing body, in which shareholders exercise their decision-making powers. General Meetings are arranged so that shareholders can exercise their rights as owners effectively. For this reason, the CEO as well as the Chairman and members of the Board of Directors shall be present at General Meetings. Those standing for election to the Board of Directors for the first term shall attend the Annual General Meeting deciding on the election.

The Annual General Meeting shall, as per the Articles of Association, be arranged once a year on a date defined by the Board of Directors, at the latest six months after the financial year has ended.

The Annual General Meeting decides on the matters specified in Section 9 of the Articles of Association and any other business proposed for the agenda.

A shareholder is entitled to have a matter falling within the remit of the General Meeting considered by the General Meeting, provided that the matter is presented in writing in time for it to be included in the notice convening the meeting. In 2021, shareholders were required to present matters for consideration by the Annual General Meeting by 31 January 2021. The shareholders did not present any matters for consideration by the Annual General Meeting.

An Extraordinary General Meeting is called if the Board of Directors deems it necessary or if the auditor or shareholders, who together hold one tenth of all shares, demand it in writing to consider a specific matter.

The notice convening the General Meeting shall be delivered to the shareholders no earlier than three months and no later than three weeks prior to the meeting, but no later than nine days before the record date of the General Meeting. Shareholders of the company and their proxy representatives were able to participate in the meeting and exercise shareholder rights only through voting in advance as well as by making

counterproposals and presenting questions in advance. The company did not receive any counterproposals or questions. A total of 631 shareholders participated in the meeting, either personally or by proxy, representing approximately 43.0 per cent of the Company's shares and votes. III Descriptions of internal control procedures and the main features of risk management systems

Risk management

Kojamo's risk management is based on the company's risk management and treasury policy, business principles and the risk assessments carried out during the strategy and annual planning process. Risk management is part of the company's internal control, its purpose being to ensure that the company achieves its business objectives.

The role of risk management is to identify, classify, analyse and manage central risks associated with the operations. The aim is to ensure the achievement of the goals related to financial performance, customers and personnel.

Responsibility for the organisation of risk management and the risk management policy rests with the Board of Directors. Risk management is based on the risk assessments carried out during the strategy and annual planning process, which involve identifying key risks, evaluating their likelihood and potential impacts, and defining the means to manage them. Any significant changes in risks associated with the operations and the business environment are evaluated regularly and reported to the Audit Committee and the Board of Directors as part of quarterly interim reporting.

Internal control

Internal control seeks to ensure that Kojamo's operations comply with current legislation and regulations and the company's operating principles, and that the company's financial and business reporting is reliable. Internal control also seeks to safeguard Kojamo's assets and ensure that its operations are efficient and reliable, thereby enabling its strategic goals to be achieved.

The internal control and risk management operating model for financial reporting is designed so as to gain sufficiently dependable information on the reliability of financial reporting and to ensure that the financial statements are drawn up according to current legislation and regulations.

Kojamo's internal control system is based on the framework published by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

The organisation of internal control is the responsibility of the Board of Directors and the CEO. However, responsibility for carrying out internal control is shared by the entire organisation: each individual Group employee is responsible to his/her supervisor for internal control in his/her area of responsibility.

Auditing environment

Principal responsibility for the internal auditing of financial reporting rests with the Board of Directors. The working order of the Board of Directors outlines the responsibilities of the Board and the division of duties within the Board and among its committees. The principal task of the Audit Committee appointed by the Board of Directors is to ensure that the principles outlined for financial reporting, risk management and internal control are complied with, and that appropriate contact is kept with the company's auditors. It is the duty of the CEO to maintain an organisational structure in which responsibility, authority and reporting relationships are clearly and comprehensively defined in writing, and to ensure that the internal control environment is adequately resourced.

In addition to laws and regulations, financial reporting is governed by Kojamo's operating principles, HR policy, financing policy, data security policy, accounting principles and reporting instructions.

Auditing measures

Kojamo's financial and operational reporting process complies with the Group's operating instructions and current process descriptions. The primary responsibility for the operational management of the monitoring environment for financial reporting lies with the CFO. The quality of reporting is ensured through process control measures. These include the reconciliation of accounts, system-generated controls, and inspections and other measures undertaken by management or other parties. Control functions have designated managers who are responsible for their sufficiency and the efficacy of their execution.

Control of the reporting and budgeting processes is based on Kojamo's standardised reporting principles, which are drawn up and maintained by the financial management.

Monitoring

The effectiveness of internal financial reporting control is monitored by the Board of Directors, the Audit Committee, the CEO and the internal auditing department. Internal control encompasses the monitoring of monthly financial and operational reports, the reviewing of forecasts and plans and the reviewing of reports prepared by internal auditing as well as quarterly interim reports from the external auditors.

Any significant changes in risks in business operations and the business environment are regularly evaluated as part of quarterly interim reporting.

Internal auditing submits a summary report to the Audit Committee every six months concerning the inspections conducted, principal observations made, and actions agreed upon.

IV Other information to be provided

Internal auditing

The internal audit is responsible for the independent evaluation and assurance function required of a listed company, which systematically examines and verifies the efficiency of risk management, control, management and governance. The Audit Committee of Kojamo's Board of Directors has confirmed the operating instructions for the internal audit function.

Kojamo's internal auditing has been outsourced to the audit firm PricewaterhouseCoopers Oy. Kojamo has designated the CFO and Group Controller to be in charge of coordinating the practical activities. Internal auditing operates under the authority of the CEO and the Audit Committee and reports its observations and recommendations to the Audit Committee, the CEO, the Management Team and the auditor. The auditing function covers all companies and functions in the Kojamo Group.

The auditing operations are based on risk analyses and conversations with the Group management related to risk management and control. Regular meetings with the auditor are set up in order to guarantee sufficient audit coverage and to avoid overlapping operations.

Internal auditing annually draws up an auditing plan that is approved by the CEO and the Audit Committee. The auditing plan is modified based on risks, if necessary.

Focus areas of the internal auditing operations in 2021 and 2022

The main focus areas of internal auditing operations in 2021 were related to ICT architecture, procurement, sales, data protection and unit inspections.

In 2022 the main focus areas of internal auditing are related especially to sustainability, the state of IT security, data protection, and unit inspections.

Insider management

With regard to insider management, Kojamo complies with the provisions of Market Abuse Regulation (EU) No. 596/20147 ("MAR") of the European Parliament and the Commission, guidelines issued by the Finnish Financial Supervisory Authority and the European Securities and Markets Authority (ESMA) as well as the rules and insider guidelines of Nasdaq Helsinki Ltd. In addition, Kojamo has prepared insider guidelines, approved by the Board of Directors.

The insider guidelines have been published on Kojamo's website at <https://kojamo.fi/en/investors/corporate-governance/>.

The insider guidelines shall be applied to persons discharging managerial responsibilities within Kojamo as well as to all persons who have access to inside information. The guidelines shall also be applied to any persons acting on behalf of the Company or on its account when they perform tasks through which they have access to inside information.

Kojamo maintains a list of persons discharging managerial responsibilities and persons closely associated with them. Persons discharging managerial responsibilities refer to members of the Board of Directors, the CEO and the members of the Management Team. Persons at Kojamo discharging managerial responsibilities and persons closely associated with them must inform Kojamo and the Finnish Financial Supervisory Authority of all of their business transactions. Kojamo publishes notifications on transactions made by persons discharging managerial responsibilities and persons closely associated with them promptly and no later than two business days after it has received a notification from a person discharging managerial responsibilities or a person closely associated with them.

All persons who have access to project-related inside information and who work for the Company or perform tasks for the Company through which they have access to project-related inside information, including any external consultants and auditors, are entered in the event-based insider list.

Persons subject to the trading restriction include, among others, members of the Board of Directors, CEO, members of the Management Group, persons participating in the preparation, drawing-up and disclosure of financial reports or other persons who receive information about Kojamo's result before it is disclosed. The trading restriction is also applied to legally-incompetent persons under the custody or trusteeship of persons subject to the trading restriction. The restriction also covers the execution of transactions for one's own account or for the account of a third party, directly or indirectly, for instance through a legal person over which a person discharging managerial responsibilities exercises control.

A person who discharges managerial responsibilities within Kojamo or who has been defined to be subject to the trading restriction may not execute transactions on their account or for the account of a third party during a closed period. At Kojamo, the closed period begins once the quarter in question ends and runs until the publication of a financial statements bulletin, a half-yearly financial report or an interim report. However, the closed period is always at least thirty (30) days before the publication of the interim report, half-yearly financial report or financial statements bulletin in question. Kojamo also does not repurchase its own shares during this period.

The auditor and the auditor's remuneration

The audit is conducted by the auditor elected at the Annual General Meeting. The auditor of the Company shall be an auditing firm approved by the Finnish Patent and Registration Office. The auditor's term of office ends at the close of the next Annual General Meeting following the election.

Related party transactions

The Company's Board of Directors has defined the principles for the monitoring and evaluation of related party transactions. The Company has defined its related parties and maintains a list of related parties. Part of Kojamo's related parties (IAS 24) pursuant to the Limited Liability Companies Act can be unequivocally identified based on their position in the organisation. In addition, the Company regularly sends a questionnaire to its related parties to identify other related parties.

Decisions on business transactions with related parties shall be made by the Management Team. However, if the transaction is not conducted in the ordinary course of Kojamo's business or is not implemented under arm's-length terms, the decision on the transaction with a related party shall be made by Kojamo's Board of Directors. The Company ensures that potential conflicts of interest are appropriately taken into consideration in the Company's decision-making.

The Company evaluates and monitors transactions with related parties and the terms thereof and reports on them annually to the Audit Committee.
