Kojamo plc (hereinafter referred to as "Kojamo") complies with the Finnish Corporate Governance Code 2020, which entered into force on 1 January 2020. This Remuneration Report has been prepared in accordance with the guidelines concerning remuneration reports for governing bodies laid out in the Corporate Governance Code 2020. This Remuneration Report includes information on the remuneration of the Board of Directors, CEO and Deputy CEO in 2022.

Well-functioning and competitive remuneration is an important tool for the recruitment and retention of competent Board members, key personnel and employees to Kojamo which, in turn, promotes the implementation of the Company's business strategy and its long-term financial success. The remuneration principles are intended to ensure the implementation of Kojamo's strategy and the achievement of business goals.

The Annual General Meeting of Kojamo on 16 March 2022 resolved to approve the Remuneration Report 2021. The presentation methods of consecutive years are in line with each other.

3. Remuneration of the CEO

Decisions on the remuneration of the CEO and other fees paid to the CEO are made by the Company's Board of Directors in accordance with the remuneration policy presented to the General Meeting. The Remuneration Committee prepares matters for the Board of Directors pertaining to the remuneration of the CEO and the remuneration principles applied by the Company.

The remuneration of the CEO consists of fixed remuneration components and variable remuneration components. Fixed remuneration consists of a regular total remuneration package consisting of a salary and ordinary benefits in kind (such as phone and car benefits). Variable remuneration components consist of a short-term incentive plan and a long-term incentive plan.

Short-term incentive plan

The purpose of the short-term incentive plan is to incentivise the achievement of the Company's annual financial or

operational targets. Short-term remuneration takes place within the framework of the annual performance bonus plan. For the short-term incentive plan to apply, the threshold level set for a Company-level performance target must be achieved. In 2021, the Company-level target was the Group's total revenue.

The Board of Directors decides on the criteria and potential size of short-term remuneration for each year at the end of the previous year. With the help of the Remuneration Committee, the Board of Directors assesses the achievement of the performance criteria for short-term remuneration relative to the targets based on the Company's reporting.

The grounds for determining the short-term remuneration paid to the CEO in 2022 for performance in the year 2021 – and the application of those grounds – is illustrated in the table below.

Weight, %	Performance indicator	Application/result
100	Company-level indicators (the Group's total revenue, the Group's FFO, the Group's administrative expenses relative to total revenue, NPS and the Group's acquisition of investment properties)	0%
additionally, 5% at a maximum	Individual performance indicator	100% ⁵

The potential remuneration payable for performance in 2022 under the short-term incentive plan will be paid fully in cash in the following year.

Long-term incentive plan

The long-term incentive plan is intended to align the interests of Kojamo's shareholders and the CEO in order to increase the Company's value in the long term and engage the CEO's commitment to the implementation of the Company's strategy and offer the CEO a competitive incentive plan based on the earning and accumulation of the Company's shares.

The Board of Directors decides the performance criteria for each earning period and the targets for each criterion as well as the earning opportunity in cash and/or the number of

Kojamo shares before the start of each earning period. The duration of the earning periods in the incentive plans currently in effect is three years each.

With the help of the Audit Committee, the Board of Directors assesses the achievement of the performance criteria of long-term remuneration based on the Company's financial statements figures at the start of each earning period relative to the confirmed target matrices.

The grounds for determining remuneration under the long-term incentive plans currently in effect and the degree to which the criteria were achieved are shown in the table below.

⁵ Based on separate evaluation by the Board of Directors

	Earning period 2019–2021	Earning period 2020–2022	Earning period 2021–2023	Earning period 2022–2024
Earning criteria (weight)	Total revenue (40 %) Group ROE % (20 %) Group's FFO per share (40 %)	Total revenue (50 %) Group's FFO per share (50 %)	Total revenue (50 %) Group's FFO per share (50 %)	Total revenue (40 %) Group's FFO per share (50 %) Deduction in CO ₂ emissions, kg (10 %) (min 93 / target 140 / max 186)
Maximum number of shares transferable to the CEO⁶	25,764	5,716	35,000	35,000
Percentage of achievement of the earning criteria	56.23 %	16.33%	N/A	N/A

Any reward for each earning period will be paid during the year following the expiry of the earning period partially in shares in the Company and partially in cash. The cash component is intended to cover taxes and similar fees incurred by the CEO as a result of the reward. In the event that the CEO's employment or service relationship with the Company is terminated prior to the payment of the reward, no reward will be paid as a rule.

The CEO must hold 50 per cent of the net number of shares paid to him based on the whole incentive plan, until his/her total shareholding in the Company corresponds to the value of his/her annual gross salary. Such number of shares must be held as long as the CEO's employment or service relationship with the Company continues.

Supplementary pension contributions

The CEO's retirement age is 63 years. The CEO belongs to a defined-contribution pension system for the members of the Management Team, in which an insurance premium corresponding to two months' pay is paid annually into a group pension insurance plan.
